

Claims

I claim:

- 1 1. A method of providing souvenir images to event site customers, comprising:  
2 capturing at least one image of an event site, wherein the at least one image is  
3 associated with an event site location;  
4 receiving desired location information from the customer; and  
5 displaying the at least one image associated with the desired location.
- 1 2. The method of claim 1, further comprising providing the at least one image to the  
2 customer.
- 1 3. The method of claim 1, wherein the at least one image comprises an electronic image.
- 1 4. The method of claim 1, wherein the at least one image comprises a scoreboard display  
2 signal.
- 1 5. The method of claim 1, wherein the at least one image comprises a television broadcast  
2 signal.
- 1 6. The method of claim 1, wherein the at least one image comprises a video clip.
- 1 7. The method of claim 1, wherein the at least one image comprises a photograph.

1 8. The method of claim 1, further comprising correlating the desired location with the event  
2 site location.

1 9. The method of claim 1, further comprising receiving money from the customer.

1 10. The method of claim 1, wherein receiving desired location information from the customer  
2 comprises receiving a seat number from the customer.

1 11. A method for providing souvenir images to a customer, comprising:  
2 generating a plurality of images, the images having locations associated  
3 therewith;  
4 receiving a location indicator from a customer;  
5 correlating the location indicator with at least one image in the plurality of  
6 images; and  
7 providing the at least one image to the customer.

1 12. The method of claim 11, wherein the at least one image is provided to the customer in  
2 response to receiving a payment from the customer.

1 13. The method of claim 11, wherein providing the at least one image comprises:  
2 receiving an electronic mail address from the customer; and  
3 transmitting the first image to the electronic mail address.

1 14. The method of claim 11, wherein providing the at least one image comprises:  
2 printing the at least one image.

1 15. The method of claim 11, wherein providing the at least one image comprises:  
2 writing the at least one image onto a signal bearing media.

1 16. A system for providing souvenir images, comprising:  
2 a selection input device adapted to receive a desired location from a customer;  
3 and  
4 a processor adapted to correlate the desired location with an event site location;  
5 a camera adapted to capture at least one image of the event site location;  
6 and  
7 an image delivery apparatus adapted to provide the image associated with the  
8 desired location to the customer.

1 17. The system of claim 16, wherein the image delivery apparatus comprises a kiosk.

1 18. The system of claim 17, wherein the image delivery apparatus comprises a printer  
2 operably connected to the kiosk.

1 19. The system of claim 17, wherein the image delivery apparatus comprises an optical disk  
2 writer operably connected to the kiosk.

1 20. The system of claim 16, wherein the selection input device comprises at least one of a  
2 touch sensitive monitor and a keypad.

1 21. The system of claim 16, wherein the image delivery apparatus comprises a server  
2 computer operably connected to a computer network.

1 22. The system of claim 16, further comprising a stadium display unit operably connected to  
2 the camera, the stadium display unit adapted to display the at least one image to a plurality of  
3 event site customers.

1 23. The system of claim 16, wherein the image comprises at least one of: a video clip, a  
2 photograph, a digital photograph, and a digital video clip.

1 24. A system adapted to provide souvenir images to event site customers, comprising:  
2 a camera adapted to capture a plurality of pictures of an event site;  
3 a sensor that correlates the plurality of images with a plurality of seat locations;  
4 a kiosk comprising:  
5 a ticket reader that receives an assigned seat location from a customer;  
6 a display that displays an image in the plurality of images associated with the  
7 assigned seat location;  
8 a payment receiver that receives a required payment from the customer; and  
9 a printer that prints the image associated with the desired seat location in response  
10 to the payment receiver receiving the required payment.

1     25.     A computer program product, comprising:

2                    (a) a program configured to perform a method of providing souvenir images to  
3                    event site customers, the method comprising:

4                            1) capturing at least one image of an event site, wherein the at least one  
5                            image is associated with an event site location;

6                            2) receiving desired location information from the customer; and

7                            3) displaying the at least one image associated with the desired location;

8                            and

9                    (b) a signal bearing media bearing the program.
